Re: Design and Construction of Composite Liner System
Sedimentation Basin
Type III Restricted Waste Landfill
A.B. Brown Generating Station
West Franklin, Indiana

Dear Ms. Scheller:

In accordance with your request, this letter is submitted to document that the undersigned professional engineers certify that the design of the composite liner system in the sedimentation basin for the A.B. Brown Generating Station RWS III Landfill is in compliance with the requirements outlined in Section §257.71 of the CCR Rule. It is noted that the design of the basin was reviewed and approved by the Indiana Department of Environmental Management.

Further, this letter is submitted to certify that the composite liner of the sedimentation basin was constructed in accordance with the design requirements. The Construction Quality Assurance Report, which documents this work, was also reviewed and approved by the Indiana Department of Environmental Management.

Please feel free to contact either of the undersigned if you have any questions regarding this information.

Sincerely,

ATC Group Services LLC

David L. Stelzer, Ph.D., P.E.
Senior Project Engineer

Donald L. Bryenton, P.E.
Principal Engineer
